Computer Science and Engineering

Session 2026-27

Summer Internship

Paarth Gupta

202401100200221

2400290100221

About the Company :-

Cisco Networking Academy

- Global IT and cybersecurity education program by Cisco Systems.
- Bridges the tech skills gap with industry-standard curriculum.
- Focus Area: Core programming logic and application development via the JavaScript Essentials curriculum.

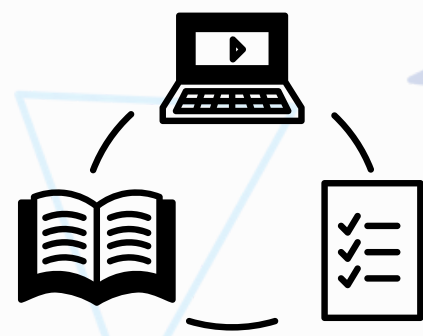

About the Company :-

Oracle University

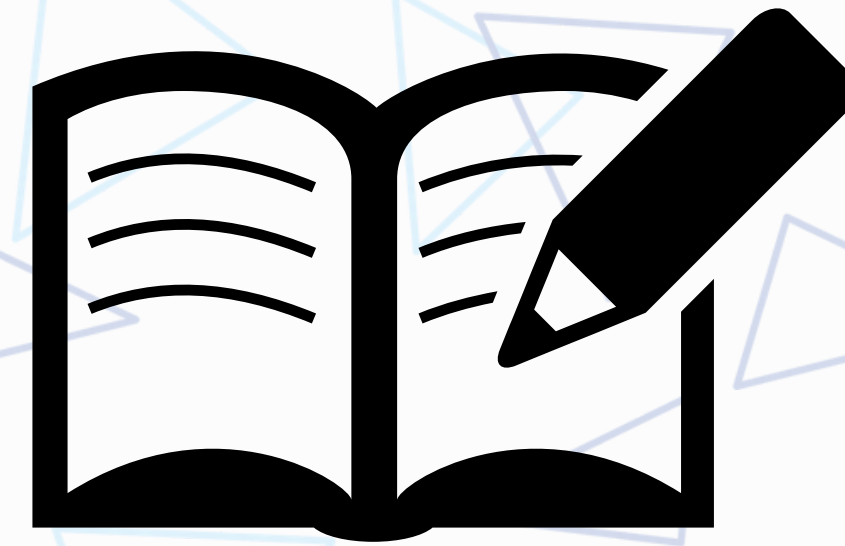

- Global leader in enterprise cloud computing, databases, and infrastructure.
- Pioneers in integrating artificial intelligence into enterprise applications.
- Focus Area: Next-generation AI capabilities and automation via the Agentic AI Certified Foundations program.

ORACLE
University

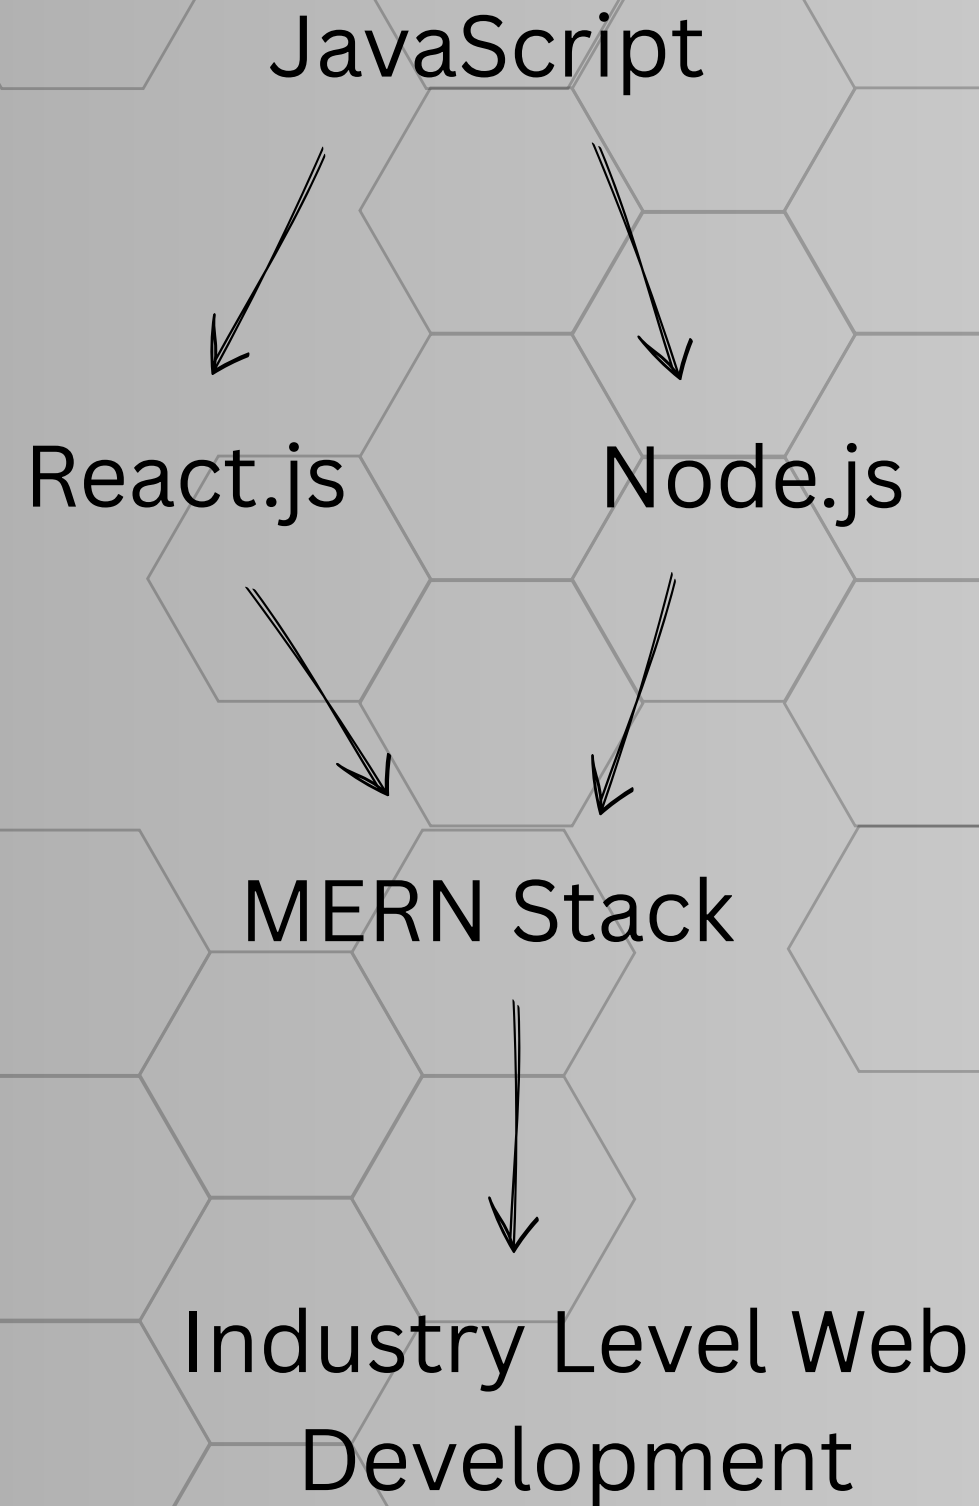

Internship Objectives :-

- Earn industry-recognized professional certifications in JavaScript and Agentic AI.
- Build a strong foundation in JavaScript for modern web development.
- Strengthen my skills in the MERN Stack ecosystem.
- Advance my frontend development capabilities using React.js.
- Enhance backend development knowledge with Node.js.
- Gain practical understanding of Agentic AI concepts and workflows.
- Explore emerging AI technologies that are shaping the future of software development.
- Prepare myself for industry-ready roles in Full Stack Development and Artificial Intelligence.

Technology Stack

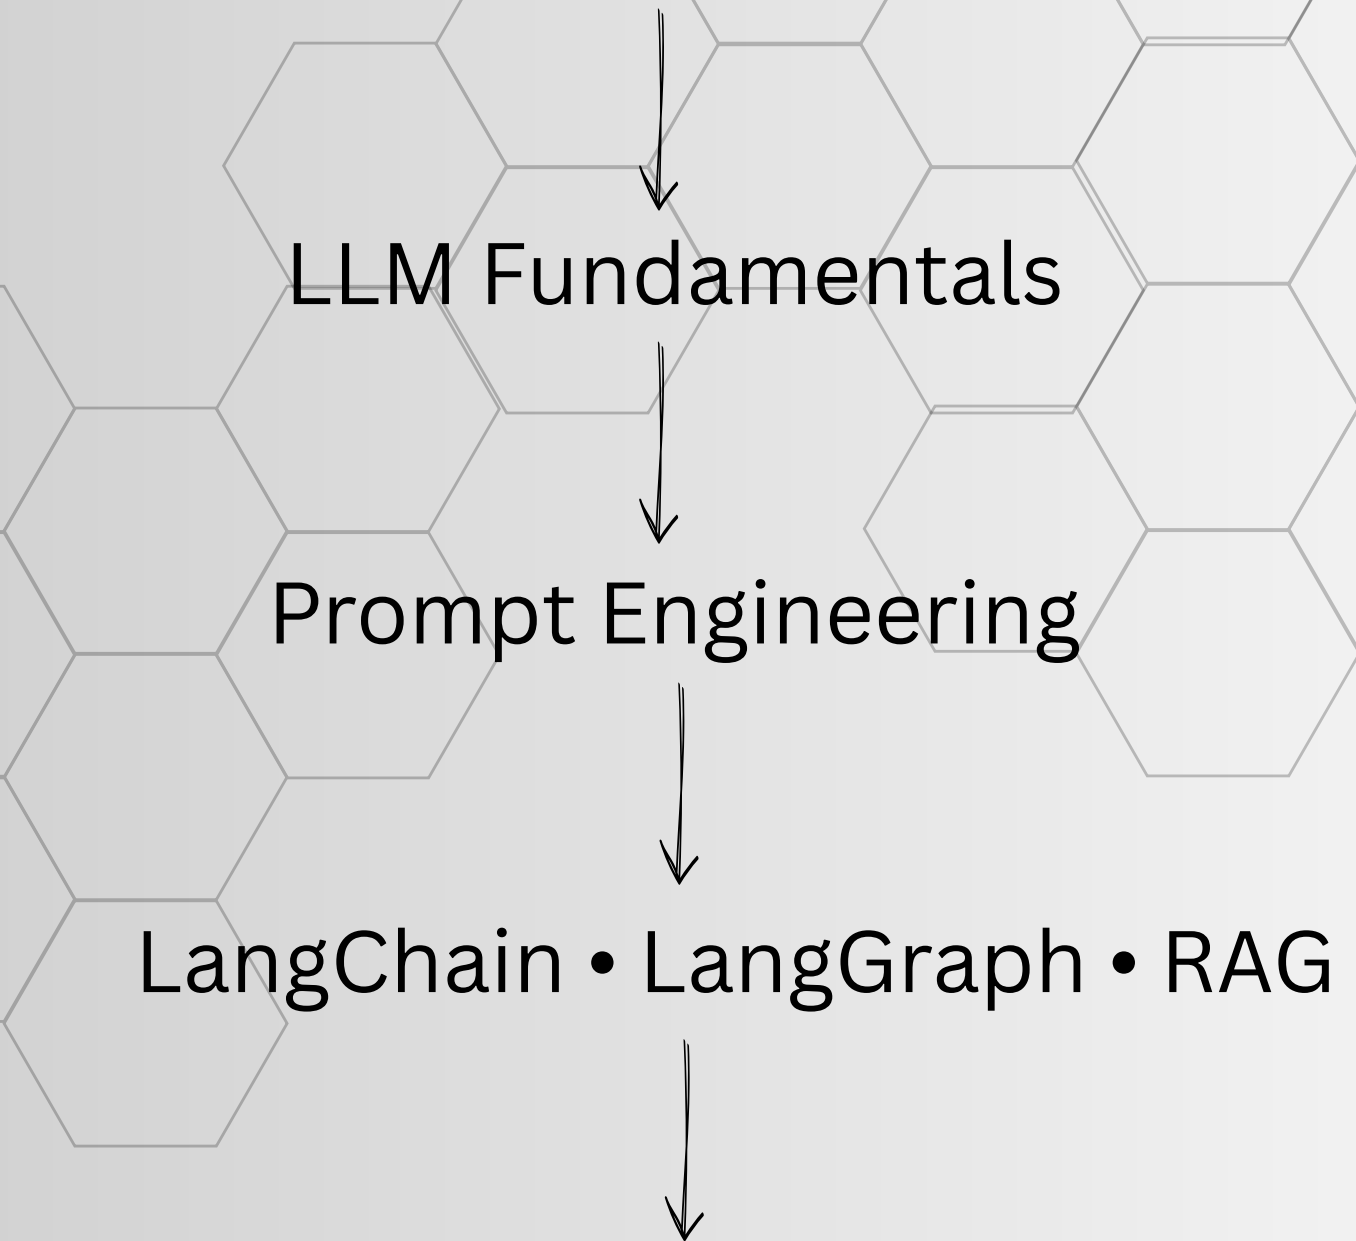

Agentic AI (Oracle University)

LLM Fundamentals

Prompt Engineering

LangChain • LangGraph • RAG

AI Agent Development

Key Learnings

Technical Skills

- Developed a strong foundation in JavaScript and modern programming concepts.
- Strengthened understanding of React.js for component-based frontend development.
- Enhanced backend development knowledge using Node.js and asynchronous programming concepts.
- Improved problem-solving through practical coding exercises.

Professional Growth

- Learned to adapt quickly to emerging technologies.
- Developed a mindset of continuous learning and self-improvement.
- Understood current industry trends in Full Stack Development and Artificial Intelligence.
- Strengthened analytical thinking and technical problem-solving skills.

Artificial Intelligence

- Learned the fundamentals of Agentic AI and autonomous AI systems.
- Explored Large Language Models (LLMs) and Prompt Engineering.
- Understood AI agent workflows, reasoning, planning, and tool integration.
- Gained exposure to modern AI frameworks such as LangChain, LangGraph, and Retrieval-Augmented Generation (RAG).

Challenges Faced

- Transitioning from basic programming to JavaScript concepts like asynchronous programming and event-driven execution.

- Understanding the rapidly evolving field of Agentic AI and its ecosystem.

- Learning advanced AI frameworks such as LangChain and LangGraph.

- Balancing multiple learning objectives within the internship duration.

- Connecting theoretical concepts with real-world applications.

Results and Conclusions

Successfully completed two industry-recognized professional certifications:

Expanded knowledge of modern Full Stack technologies, including React.js and Node.js.

Improved problem-solving, analytical thinking, and continuous learning skills.

Strengthened core programming skills in JavaScript.

Gained foundational understanding of Agentic AI, AI Agents, and intelligent automation concepts.

This certificate is awarded to
Mr PAARTH GUPTA

for successfully completing
JavaScript Essentials 1
offered by Networking Academy
through the Cisco Networking Academy program.

Lynn Bloomer
Director
Cisco Networking Academy

24 Jul 2026
Completion Date

Oracle Certified Foundations Associate

Certificate of Recognition

Paarth Gupta
Agentic AI Certified Foundations Associate

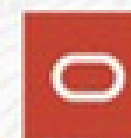

This certifies that the above named is recognized by Oracle Corporation as Oracle Certified.

August 04, 2026

Date

A handwritten signature in black ink that reads "Gary N Miller".
